Agency  
Region X  
Mail Stop #513  
1200-6th Avenue  
Seattle, WA 98101

Reference: Prudhoe Bay Ambient Air Monitoring  
Program: Source Testing

Dear Mike:

The Prudhoe Bay Operators and Radian Corporation are planning to conduct source sampling on selected gas-fired turbines operating at Prudhoe Bay, Alaska. The source testing is part of an Ambient Air Monitoring Program which is being undertaken at Prudhoe Bay. This testing will begin about October 25, 1978 and is expected to take about a week to ten days.

We would like to invite you or a representative of your Agency to witness these tests. If you plan to witness the test, please call either myself (907-265-6533) or Rick Shafer (907-265-0174) so we can coordinate your visit.

If you have questions, please call.

Very truly yours,

W. P. Metz  
Senior Environmental Engineer

cc: R. V. Shafer - Sohio  
R. Thiel - EPA, Anchorage  
P. Bartosh - Radian, Austin.
